

## What to do with my user's plugin activation code

### STEP 1

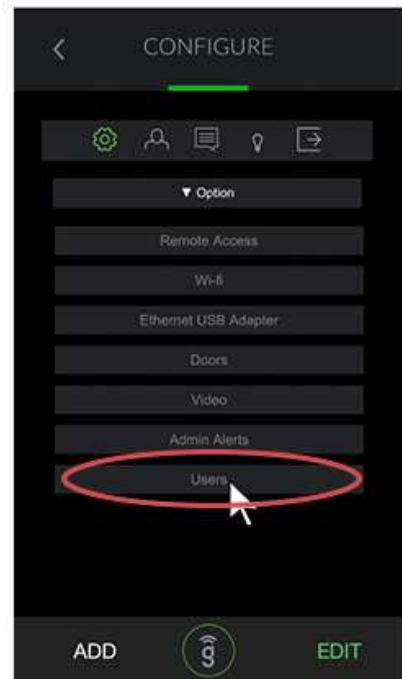

Open the Gogogate2 app on your Smartphone and press the "EDIT" button.

### STEP 2

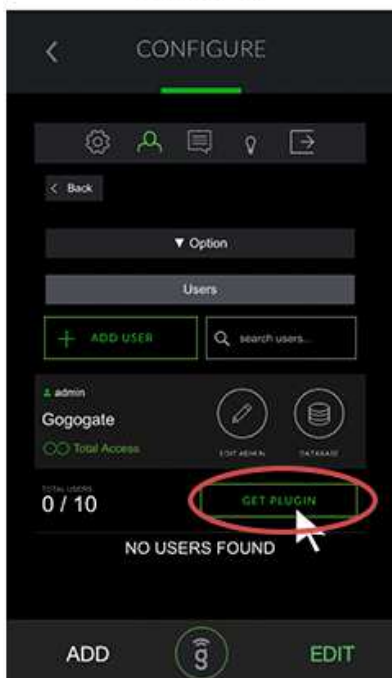

In the Edit Menu, select the Gogogate2 device you want to configure and hit the "CONFIG. DEVICE" button.

### STEP 3

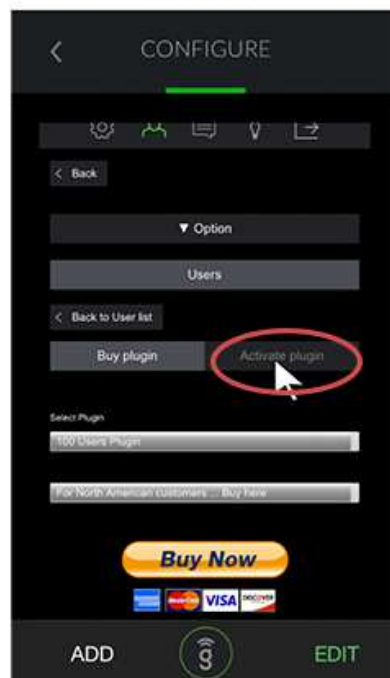

In the Settings menu, select the Users option.

### STEP 4

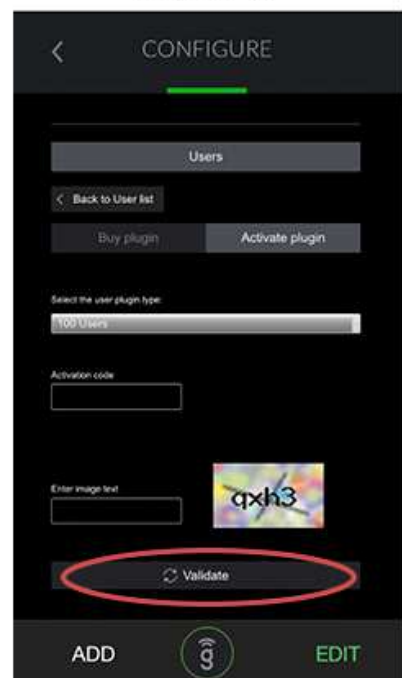

In the Users option, press the "GET PLUGIN" button if willing to upgrade your User's subscription.

### STEP 5

Select the "Activate Plugin" option if you've already bought a User's subscription online or has received an activation code from your distributor/installer.

### STEP 6

In the "Activate plugin" section, introduce first the activation code and then the security image text. Press "Validate" to finish the activation process. Your User's subscription has been successfully upgraded.
